OSRTI Tribal Hot Sites DRAFT 8-11-15.docx

Hi Bunmi –

1 – name of the site got changed – see attached -- Freezeout Triangle Site (formerly Dewey-Burdock Mine)

2 – just got a wee bit more info re Tuba City – see attached.

We still have a placeholder on treaty rights. I just got off the phone with Jeff Besougloff and the treaty rights material is “embargoed” until they can brief the Admin which was supposed to happen today but got trumped by Gold King.

Let me know if you have any other questions! Thanks.
